

WHAT WE'RE FIGHTING FOR:

MONEY POWER Respect

SEIU

AN ECONOMY THAT WORKS FOR US. NOT JUST THE RICH.

- Thriving Communities

Where everyone has a healthy, safe and joyful life. We work hard, but working hard shouldn't mean falling behind.
- Thriving Wages

A future where our wages cover all expenses and allow us to live to the fullest. A future where billionaires and corporations pay their fair share.
- Cost-of-Living Relief

All working people, no matter what kinds of jobs we do, should be free to come together for better jobs and better pay.
- Care We Can Afford

An affordable, equitable and high-quality care system that provides for us across the lifespan. Care should not be a luxury reserved for the rich.

AN ECONOMY THAT WORKS FOR US

POWER FOR WORKING PEOPLE

- Unions for All

Protect and expand the freedom for all workers, no matter the jobs we do, to join a union. We're fighting to ensure we leave no worker behind.
- Our Government Back in Our Hands

End corporate control of our political system and elections. Democracy belongs to ordinary people. One person, one vote—not one dollar, one vote.

DIGNITY & RESPECT FOR WORKERS

Dignity & Respect
That every community is invested in and that our voices are heard. That our lives and contributions are respected enough that we can work, live, and retire with dignity and safety.

POWER, DIGNITY & RESPECT FOR WORKING PEOPLE

JUST & EQUITABLE FUTURES

- Racial Justice

A world where past and present racism is acknowledged, and systems are designed to ensure equitable relief and empowerment to the Black, brown, indigenous, Asian, and immigrant workers who have faced that discrimination for generations.
- Healthcare Justice

No one should be forced to choose between groceries and medicine. We will demand accountability from politicians who cut our healthcare to pay for billionaire tax breaks. We will build a system that ensures quality, affordable healthcare programs for everyone.
- Immigrant Justice

Better pathways to citizenship for the families that work hard alongside us, not militarized communities, harm, and separation. Regardless of our country of origin, we all want the same thriving future.
- Climate Justice

Protections from extreme heat, pollution, and unsafe conditions driven by climate change. We demand accountability from corporate polluters and investment in & pathways toward clean energy work.

DEMOCRACY & FREEDOM

Where all working citizens can safely and freely cast our ballots so our elections reflect the will of the people, not corporations, billionaires, or those with power who attempt to manipulate elections.

JUSTICE, DEMOCRACY & FREEDOM
